DISCOVER *The Possibilities*

Possibilities. Each Springboard software program inside is filled with possibilities. You will find new ways to communicate, develop your creativity and have fun as you explore the world of your computer. Whether it's a program that helps you desktop publish, assists you in making a certificate or encourages your child to learn the ABC's, every one offers you its own opportunities.

These days, there are thousands of software titles to choose from, but few really do what they promise. We spend an extraordinary amount of time developing, testing and preparing our software and customer support policies to meet the needs of people just like you. The result is a selection of exceptional and very useful software.

We are proud of our programs and believe that Springboard offers you some of the best software available today. Software that helps you discover the possibilities.

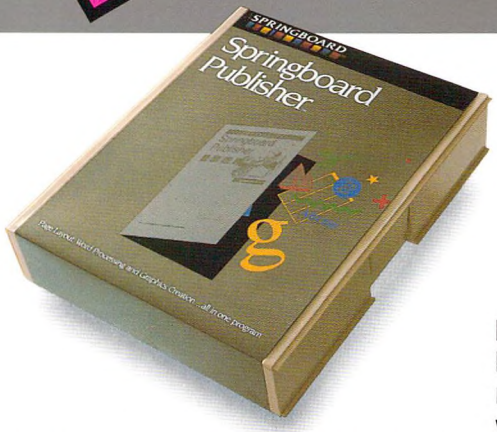
NEW Springboard Publisher™



Page Layout, Word Processing and Graphics Creation...all in one program.
Welcome to Springboard Publisher,™ the breakthrough in desktop publishing that Apple II and IBM PC owners have been waiting for. It's the first Mac-like desktop publisher to combine powerful page layout, word processing and graphics creation into one program. There's nothing else like it.

One integrated program instead of three separate programs.
Many desktop publishers make you juggle three different programs every time you want to create a page. But with Springboard Publisher, everything you need...page layout, word processing and graphics creation...are right there. You never have to leave your page.

Publish in minutes instead of days.
Springboard Publisher puts its power at your fingertips. Mac-like pull down menus give you instant access to all features with the touch of a key or the click of a mouse. Begin anywhere you want and make as many changes as you like. It's really that simple.

FREE Works of Art.™
Buy Springboard Publisher now and receive a free Works of Art package of your choice—a $39.95 retail value. Over 500 pieces of professionally-drawn art ready to use with Springboard Publisher.

Rainbow Painter®

More flexible than a coloring book.
Rainbow Painter™ develops artistic creativity by encouraging play with color and design. A child can color the same illustration again and again, experimenting with new colors and patterns each time. Or a child can always start with a new illustration from one of 10 categories like dinosaurs or outer space.

Pick a drawing from the dozens available. Paint it with any of 50 drawing brushes in any of 120 different colors or patterns. Add lines, boxes, circles or simply draw free-hand. No keyboarding skills are required.

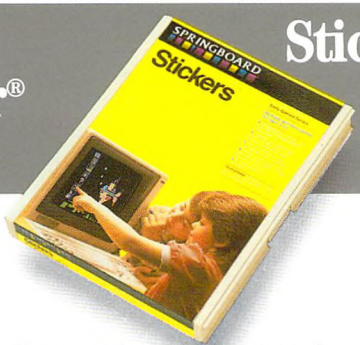
Item:	**R1010**
Ages:	4-10
Compatibility:	Apple II +, IIe, IIc, IIGS; Commodore 64
Price:	$34.95

Puzzle Master®

Puzzle lovers! Test your skill with computerized jigsaw puzzles.
Puzzle Master has dozens of high-resolution puzzles to solve. Choose scary pictures, cartoons, reptiles or one of seven other categories or create your own. Multiple skill levels let a four-year-old break a picture into a few pieces, while an adult can enjoy an 800-piece brain scrambler.

Item:	**P1010**
Ages:	4 to Adult
Compatibility:	Apple II +, IIe, IIc, IIGS
Price:	$34.95

Stickers™



Discover the world of shapes and colors with Stickers.™
With Stickers,™ children create pictures by selecting stickers, coloring, rotating and dropping them into matching shapes. They can build a flower, a fort, a flying fish or their own design.

Item:	**S1010**
Ages:	4-12
Compatibility:	Apple II +, IIe, IIc, IIGS; IBM PC*; Commodore 64
Price:	$34.95

Early Games For Young Children™

Introduce children to the fun of computer learning.

Young children are eager to learn. To encourage their learning, start them out with Early Games for Young Children.™ This program introduces children to basic educational concepts, even before they can read and write. They learn how to recognize shapes and letters, add and subtract, draw creatively, type with the computer and spell their names.

No other computer program offers such a stimulating variety of learning experiences for young children.

Item:	**EG1010**

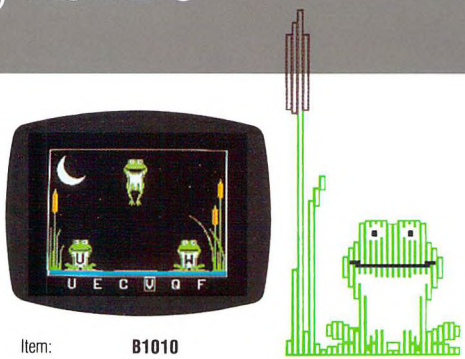
Easy As ABC®



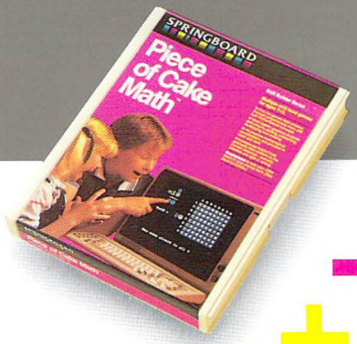
Learning the alphabet is Easy as ABC.®

Easy as ABC® is the fun way to learn the alphabet. Jumping frogs and soaring rockets keep children fascinated as they learn letter recognition, alphabetical sequence and upper and lower case letters.

Item:	**B1010**
Ages:	3-6
Compatibility:	Apple II +, IIe, IIc; IBM PC,* PC jr.; Commodore 64; Macintosh, Macintosh Plus
Price:	$39.95 (Macintosh $49.95)

*Requires IBM color graphics card

Piece Of Cake Math®



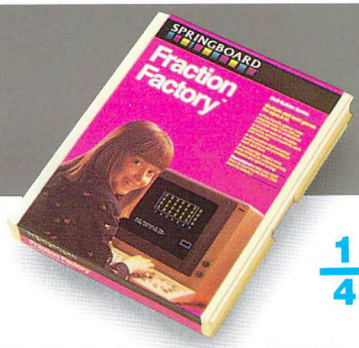
Learning math is a piece of cake.
Piece of Cake Math® offers five different learning games set inside a magical, computerized bakery. In "The Bakery" students practice addition and subtraction as they keep track of production and sales of cakes.

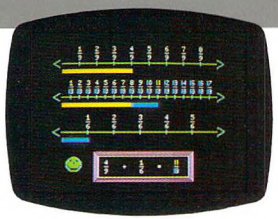
Each game takes children through more advanced levels of addition, subtraction, multiplication and division. They also receive helpful hints and explanations of right and wrong answers. Suggestions for additional activities on and off the computer are included.

Item:	**PC1010**
Ages:	7-10
Compatibility:	Apple II+, IIe, IIc, IIGS; IBM PC*, PCjr.; Commodore 64
Price:	$34.95

*Requires IBM color graphics card

Fraction Factory®





Fraction Factory® puts the *whole* into perspective.
Through five fun-to-play games, students learn to describe fractions, identify equal values with different denominators, add and subtract fractions and multiply fractions by whole numbers. Each game includes colorful graphics and musical sounds that help clarify the relationship between fractions and whole numbers.

In addition, Fraction Factory®'s instruction book suggests new learning activities to reinforce the understanding of fractions.

Item:	**F1010**
Ages:	8-14
Compatibility:	Apple II+, IIe, IIc, IIGS; IBM PC*, PCjr.; Commodore 64
